

## FGP Illuminated Bollard

If you want your bollards to add a touch of class to your outdoor space

The FGP Illuminated Bollard has an organic form created by three stems that rise from the connection of the base. The soft, triangular head holds LEDs in triangular arrays that cast illumination between the verticals in a clean footprint.

LED light sources are energy efficient and castings are powder coated, making this a stylish, contemporary and popular product which is ideal for any number of outdoor environments.

H: 9713mm x Top Dia: 222mm x Base Dia: 139mm
