

Inspira Protect Planter

Inspira Protect Planters has been tested to IWA 14-1 standards to withstand impact from both 1.5 and 2.5 tonne vehicles.

Inspira Protect features an impact resistant fully-welded steel support frame. Sub frame and cladding panels are all hot-dip galvanised to BS EN 1461:2009 and powder coated to site specification. The planter sits atop a slab foundation of 150mm. The modular design can be scaled up where needed. The 2.5 Tonne version features a higher axel impact point with a height of 600mm.
