

Cubik

Collection of modular cube-shaped elements that can be joined together, composed of folded steel sheet bases, to which seats are mechanically attached.

The seats are available in several versions: steel, hardwood or thermo-treated pine and HPL.

A planter in steel and a table with an HPL top complete the collection.

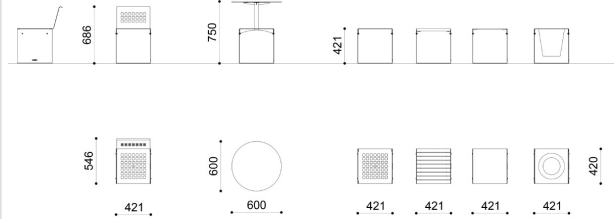

Each base is prepared for lateral attachment with the other elements of the CUBIK collection.

All metal parts are galvanised and coated with thermosetting polyester powder.

All fixings are in AISI304 stainless steel.

Prepared with holes for ground fixing through mechanical dowels (not included) for outdoor installation or in simple support for indoor installation.

L: 420mm x W: 421mm x H: 421mm
