

Heavy Duty Removable Bollard

If you're looking for a tough, durable and hard-wearing bollard then the Heavy Duty Removable Bollard is a great choice. Superb for restricting access and preventing unauthorised entry of vehicles, the bollard locates into a socket embedded in concrete.

Available in three sizes, this bollard is locked in position by use of the socket flap and a padlock (not supplied). When the bollard is removed the ground socket flap can be padlocked in the closed position keeping the socket free from debris.

The large version is fitted with side lifting handles to assist removal of the bollard. All three versions have amber reflectors on two sides. Standard colour black and white (other colours available on request).

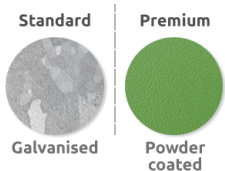

H: 690mm / 965mm / 1100mm
